

SINGLE LIFT ASSEMBLY CLASS A

The Automatic Power Class A Single Lift Assembly Aids to Navigation Package is a rugged compact unit designed for applications requiring a two mile sound signal and a single five mile marine lantern. It meets or exceeds U.S. Coast Guard requirements for Class A Aids to Navigation as specified in 33CFR sub-part 67. This galvanized steel self contained assembly includes a solar power system with batteries and battery box. The solar array can be positioned to assure it faces due south.
