

SINGLE LIFT ASSEMBLY CLASS B ZONE

Automatic Power offers two Class B Single Lift Assemblies. Each is compact and rugged one with the DA-2 half mile sound signal and one with the SA 85011A half mile sound signal. Each one meets or exceeds U.S. Coast Guard requirements for Mass B Aids to Navigation as specified in 33 FR Sub-part 67. Each self contained unit includes a solar power system with batteries and battery box. The solar array can be positioned in the field to assure it faces due south,

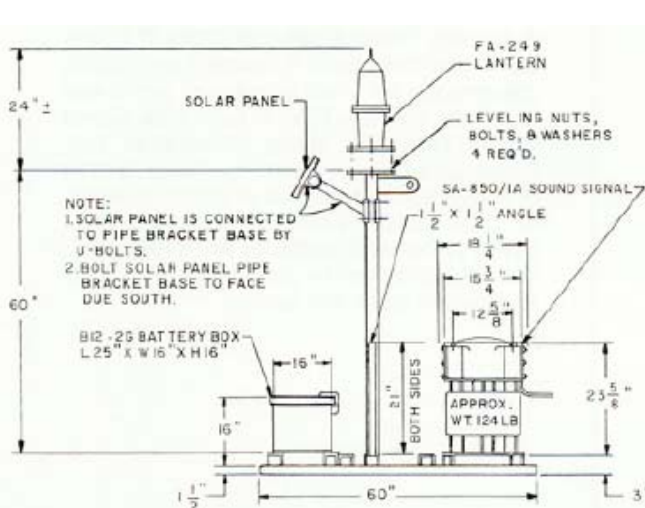

WITH DA-2 SOUND SIGNAL
